Terms of Reference (TOR) for Advisor

(A) Terms of Reference (TOR) for Economic and Employment Advisor – SETU, GoUK

Uttarakhand, one of India's youngest states, ranks as the 20th largest economy (in absolute GDP terms for FY 22) and the 12th most prosperous state (on per capita terms for FY 22) among Indian states. Home to approximately 11.3 million residents, it is the 20th most populous state in the country and 3rd in the Indian Himalayan Region. The Government of Uttarakhand has been increasingly allocating large budgetary outlays for various development schemes. The total expenditure estimated in the 2022-23 budget is Rs. 65,571.49 crores, with a 75:25 distribution between revenue and capital. Significant portions of this budget are allocated to Rural Development, Public Works, Education, Health & Family Welfare, Water Supply, Housing and Urban Development, Irrigation, and Flood Control.

As Uttarakhand approaches its 25th anniversary in 2025, the State Government is undertaking the ambitious project of "Sashakt Uttarakhand @ 25" to steer the state towards inclusive socio-economic growth. In 2022-23, the State's GDP was approximately Rs. 273.08 lakh crores. The goal is to double this figure within the next five years while focusing on environmental preservation, social and gender equality, inclusive growth, skill development, and significant job creation. Additionally, the State Government has developed a comprehensive Vision 2030, outlining strategies and interventions to accelerate Uttarakhand's progress towards the UN-SDGs. The state is also developing a vision for 2047 that aligns with the Honorable Prime Minister's vision of a developed Uttarakhand contributing to a developed India.

To realize the ambitions of "Sashakt and Vikasit Uttarakhand" and to double its GDP, the state is focusing on strengthening and reimagining its institutions. Chaired by the Honorable Chief Minister of Uttarakhand, the State Institution for Empowering and Transforming Uttarakhand (SETU) was established through a government order on 21 July 2023, replacing the Planning Commission of Uttarakhand. SETU aims to enhance the planning system, promote effective and evidence-based decision-making, encourage innovation, and improve interdepartmental coordination, along with the monitoring and evaluation of state government programs, policies, and schemes.

The SETU has a comprehensive and democratic structure, with the Honorable Chief Minister as Chairman and the Vice Chairman SETU. The Secretary of the Planning Department, CEO, and Members (all Ministers) support the Vice-Chairman. The main executive body of SETU, comprising the Secretary of the Planning Department, CEO, and ACEO, will oversee three centers under the guidance of Vice Chairman SETU:

1. The Centre for Economic and Social Development (CESD) identifies key sectors for job creation and advises on skill development and entrepreneurship.
2. The Centre for Public Policy & Good Governance (CPPGG) implements tech-based governance solutions, fosters participatory policymaking, and promotes administrative reforms.
3. The Centre for Evidence-based Planning (CEBP) focuses on data-driven policy planning, enhances monitoring and evaluation mechanisms, and supports data-centric decision-making.

The Centre for Economic and Social Development is now seeking to hire a dynamic Economic and Employment Advisor to focus on the state's economy, employment, social infrastructure, and social welfare, to drive sustainable economic growth, foster job creation, improve social amenities, and enhancing overall community well-being through strategic initiatives and policy recommendations. This senior-level leadership position will drive the objectives of the Center and report to the ACEO and CEO of SETU, with a dotted line reporting to the Secretary of the Planning Department.

Position Name: Economic and Employment Advisor

Mandatory Educational Qualifications

Master's degree in a relevant field such as Economics, Statistics, Public Policy, Development Studies, International Development, Public Administration, Management, Commerce or a similar social sciences discipline. Preferences may be given to Doctoral Degree.

- Proven ability to coordinate with diverse stakeholders like academia, government, CSOs, industry, and community.
- Excellent communication and interpersonal skills.
- Publications in journals, research publications, editorial reports, etc.
- Experience in leveraging data analytics and technology to inform evidence-based policy-making

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 4 lakhs/month including all (fixed)

Scope of Work:

- Conduct research and analysis on economic indicators, labour market trends, and employment issues.
- Develop and present policy recommendations based on data-driven insights.

- To lead the design and implementation of strategic initiatives to enhance workforce skills and employability, focusing on world-class skill training and robust industry-government collaboration in labour-intensive sectors.
- Advise on skill sectors suitable for Uttarakhand and best practices for implementation.
- Creating more job opportunities, particularly in sectors like agriculture, manufacturing, and services that could help reduce unemployment and stimulate economic growth with a good focus on the hilly economy and especially rural areas will be expected.
- Identify growth driver sectors for employment generation, including Agriculture & Allied Sectors, Industries, MSMEs, RD, Tourism, and other Services
- Identify and assess entrepreneurial opportunities across the economy and advise the government on implementation strategies.
- Collaborate with government officials, business leaders, and community stakeholders to identify economic development opportunities.
- Establish robust mechanisms for monitoring and evaluating the effectiveness of economic and employment programs.
- Provide strategic advice and guidance to senior government officials and policymakers on economic development strategies, employment policies, and initiatives to address key challenges and opportunities.
- Report on economic assessments of the current state of Uttarakhand, identifying key economic indicators, trends, and challenges.
- Analyse the impact of various economic factors on the region and propose strategies for sustainable economic growth.
- Preparing comprehensive studies on the employment landscape in Uttarakhand, including identification of key sectors, skill requirements, and employment generation potential.
- Develop models and frameworks to project future employment scenarios based on different economic development strategies.
- Organize workshops or consultations to gather input and feedback on economic and employment-related aspects for the road map.
- Prepare comprehensive reports on evidence-based policy recommendations to address economic challenges in Uttarakhand. Preparing a detailed report on policy interventions that align with national and regional development goals.
- Prepare White Papers detailing the State's action plan in alignment with national aim to become the third largest economy of the World by 2047.
- Prepare economic development strategy for the state, giving insights on the sectoral targets, economic goals in alignment with State Vision@ 2047, as per the State's requirements and roadmap to achieve the same.
- Prepare reports highlighting the innovative practices adopted by the state to support economic growth.
- Prepare action plans to leverage best practices from other states with similar economic sectors and provide recommendations that can be adopted in Uttarakhand.
- Drafting policy briefs on Shashakt Uttarakhand and providing detailed actional plans to implement the vision.

Mode of Selection

The applications that fulfill the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.

(B) Terms of Reference (TOR) for Monitoring and Evaluation Advisor

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. Uttarakhand is home to around 11.3 million residents, making it the 20th most populous State in the country and 3rd in the Indian Himalayan Region. Uttarakhand is spending increasingly large budgetary outlay on various development schemes. The total expenditure estimated in the budget (2022-23) of the Government of Uttarakhand is Rs. 65571.49 crores; in the proportion of 75:25 between revenue and capital, with the outlay on Rural Development, Public Works, Education, Health & Family Welfare, Water Supply, Housing and Urban Development, Irrigation, and Flood Control, etc. accounting for the major share of the budgeted expenditure.

Uttarakhand is approaching its 25th anniversary in 2025. At this juncture, the State Government is pursuing the ambitious project of Sashakt Uttarakhand @ 25 to drive the state towards an inclusive socioeconomic growth trajectory. In 2022-23 the size of the State GDP was approximately Rs. 273.08 lakh crores which the state strives to double within the next five years while preserving the planet, ensuring social and gender equality, inclusive growth, creating a skilling ecosystem, and creating a large number of jobs. Moreover, the State Government has also developed a comprehensive Vision 2030 outlining the requisite strategies and interventions to accelerate Uttarakhand's progress towards UN-SDGs. Uttarakhand is in the process of developing its vision for 2047 that matches with the ambitious vision of the honorable Prime Minister: Vikasit Uttarakhand for Vikasit Bharat

To achieve the ambition of Sashakt and Vikasit Uttarakhand and double its GDP, the state is in the process of strengthening and reimagining its institution. Under the chairpersonship of the honorable Chief Minister (CM) Uttarakhand, the State Institution for Empowering and Transforming Uttarakhand (SETU) has been constituted through a government order on 21 July 2023. The SETU replaced the Planning Commission of Uttarakhand. SETU has been constituted for an improved planning system, effective and evidence-based decision-making, for promoting innovations, for strengthening the convergence, coordination, participation, and networking for the efficient, sustainable, and effective use of the state's resources and, to improve the interdepartmental coordination and concrete monitoring and evaluation of the state government programs, policies and schemes.

The SETU has a comprehensive and democratic structure, with the Honorable Chief Minister as Chairman and the Vice Chairman SETU. The Secretary of the Planning Department, CEO, and Members (all Ministers) support the Vice-Chairman. The main executive body of SETU, comprising the Secretary of the Planning Department, CEO, and ACEO, will oversee three centers under the guidance of Vice Chairman SETU:

1. The Centre for Economic and Social Development (CESD) identifies key sectors for job creation and advises on skill development and entrepreneurship.
2. The Centre for Public Policy & Good Governance (CPPGG) implements tech-based governance solutions, fosters participatory policymaking, and promotes administrative reforms.

3. The Centre for Evidence-based Planning (CEBP) focuses on data-driven policy planning, enhances monitoring and evaluation mechanisms, and supports data-centric decision-making.

The Evidence-based Planning Centre of the SETU is seeking to hire a thoughtful and dynamic Monitoring and Evaluation Advisor. This is a senior-level leadership position that is going to drive and leverage the objective of the Centre. The position will report to the ACEO and CEO SETU with a dotted line reporting to the Secretary of the Planning Department.

Position Name: Monitoring and Evaluation Advisor

Mandatory Educational Qualifications

Master in a relevant subject like Social Sciences, Economics, Statistics, Public Policy, Development Studies, International Development, or a similar social sciences discipline, etc. Preferences may be given to Doctoral Degree.

Maximum Age Limit: 65 years (as on 01-04-2024)

Tenure: 03 years, if necessary maximum extension of 1+1 year.

Work Experience

- Minimum 15 years of experience in Planning, Monitoring & Evaluation and Program Management roles.
- Proven track record with results-based planning, designing, and implementation of M&E systems, methodologies, and approaches as well as in data/information collection, analysis, and reporting for government programs, UN Agencies, or International/National NGOs
- Extensive experience in conducting surveys, evaluations, and research analysis of public programs/policies/schemes.
- Demonstrated proficiency in developing analytical and evaluation tools, such as indices for government programs to rank districts based on their performance to induce healthy competition among them.
- Expertise in facilitating the development and management of dashboards for monitoring and tracking programs progress, ensuring alignment with project goals and objectives.
- Comprehensive understanding of Result Based Management (RBM) principles and adeptness in applying them to enhance program performance and deliver measurable results.
- Strong analytical skills with proficiency in statistical analysis software such as SPSS, Power BI, and Excel.AI. Experience in utilizing online data collection tools and managing dashboards for effective and evidence-based decision-making
- Demonstrated skills and experience in generating quality reports and other knowledge products that effectively communicate M&E findings and insights to stakeholders.
- In-depth understanding of government M&E system, including challenges and opportunities for improvement
- Publications in the form of reports, journal articles, research publications, and editorials, demonstrating thought leadership and contributions in Monitoring and Evaluation.
- Proven ability to provide technical assistance and capacity-building support to project teams, government officials, and partner organizations in M&E-related areas.

- Experience in leading or contributing to M&E-related policy development initiatives at the national or international level.

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 4 lakhs/month including all (fixed)

Scope of work

Develop M&E Framework

- Lead the development of a comprehensive M&E framework in alignment with the long-term strategic goals and objectives of the State Government of Uttarakhand.
- Establish SMART indicators, benchmarks targets and processes to measure the performance and impact of the policies, programs, and schemes of the Government of Uttarakhand.
- Supervise the development of the output-outcome Budget by guiding the department to allocate realistic resources for achieving the outputs and outcomes.

Supervision of M&E System

- Guide the departments in establishing robust monitoring and evaluation systems to track the performance of programs, projects, and Policies of the Government of Uttarakhand.
- Provide guidance in the development and management of program dashboards, ensuring the effective tracking of progress and achievement of key performance indicators.
- Manage and oversee CM dashboard and offer strategic insights and analysis to the CM, CEO SETU, and relevant departments for informed decision-making.
- Oversee data collection, analysis, and reporting processes of the departments.

Evaluation Design and Execution

- In close consultation with the concerned department, identify programs, policies, and schemes that are subject to evaluation. In addition, identify the areas where research studies can be done.
- Collaborate closely with the DES to establish protocols and frameworks for conducting regular evaluations, surveys, and research studies to assess the impact and effectiveness of government programs.
- Lead third-party evaluations of key programs, policies, and schemes, ensuring objectivity and rigor in the evaluation methodologies of SETU and the concerned departments.
- Ensure that all performance reviews and evaluations contain specific, targeted, and actionable recommendations.
- Ensure that all concerned departments respond to the recommendation(s) within a stipulated timeframe and outlining a) agreement or disagreement with said recommendations, b) proposed action(s) to address said recommendation(s), and c) timeframe for implementation of said recommendation(s).
- Oversee that all departments maintain a Recommendation Implementation Tracking Plan, which will keep track of review and evaluation recommendations, agreed follow-up actions, and the status of these actions.

Data Management and Analysis

- Supervise a centralized database for key performance indicators and ensure its quality reliability and timeliness.
- Design a multi-indicator survey and ensure that it is conducted at a regular frequency to update and enrich the M&E data bank of the State
- Utilize advanced data analytics techniques to derive meaningful insights and convey this to the key government authorities for evidence-based decision, policy, and program making.

Capacity Building

- Design the trainings and capacity-building programs for government officials at all levels, enhancing their understanding of RBM principles, M&E concepts, methodologies, and tools.
- Strengthen the capacity of relevant government departments to independently manage and sustain M&E processes.

Quality Assurance

- Supervise the procedures and protocols to ensure the validity and reliability of administrative data.
- Ensure the quality and accuracy of M&E data through regular audits and checks.

Reporting

- Supervise regular and ad-hoc evidence-based analytical reports of government programs, policies, and schemes.

Stakeholders Engagement

- Collaborate with internal and external stakeholders to ensure their input in the M&E system.
- Foster a culture of learning and adaptation based on M&E.

Mode of Selection

The applications that fulfil the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.

(C) Terms of Reference (TOR) for Public Policy and Good Governance Advisor

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. - Proven ability to coordinate with diverse stakeholders like academia, government, CSOs, and community.
- Excellent communication and interpersonal skills.
- Publications in Journals, research publications, editorial reports, etc. showcasing thought leadership and contributions to the field of public policy and good governance.
- Experience in providing strategic advice and guidance to senior government officials, policymakers, and decision-makers on a wide range of public policy issues, including governance reforms, regulatory frameworks, and institutional strengthening.
- Strong advocacy skills, with the ability to influence policy discourse and shape decision-making processes at the state and national levels.

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 4 lakhs/month including all (fixed)

Scope of work

Policy Formulation and Analysis

- Lead comprehensive policy research and analysis on the current and proposed policies for Uttarakhand
- Supervise and develop evidence-based policy proposals and recommendations for the different departments of the Government of Uttarakhand
- Collaborate with relevant stakeholders to ensure policies align with the department's goals and address societal needs.

Good Governance

- Identify areas of improving the governance processes within the departments
- Advise on strategies to promote transparency, accountability, and efficiency in decision-making.
- Design and implement initiatives to strengthen institutional capacity for effective governance.
- Provide strategic advice and guidance to senior government officials, policymakers, and decision-makers on statistical analysis methodologies, data-driven decision-making processes, and opportunities for leveraging data to achieve strategic objectives and priorities.

Stakeholder Engagement

- Build and maintain effective relationships with diverse stakeholders, including government agencies at the state level and national level (NITI Aayog), non-governmental organizations, and the public.
- Organize and facilitate consultations, workshops, and roundtable discussions to gather diverse perspectives before finalizing the policies and in policy matters

Monitoring and Evaluation

- Establish performance metrics and indicators to evaluate the impact of policies and governance initiatives.
- Regularly assess and report on the effectiveness of implemented policies, recommending adjustments as needed
- Ensure compliance with regulatory requirements and ethical standards

Capacity Building

- Lead the development and delivery of training programs for different departments of the staff on public policy and good governance.
- Provide mentorship to the junior staff to strengthen their understanding of policy processes

Communication and Advocacy

- Develop policy briefs and other material and disseminate it to the relevant stakeholders.
- Advocate for policy changes when necessary, utilizing evidence-based arguments and engaging with relevant stakeholders.

Risk Management

- Identify potential risks associated with proposed policies and governance reforms.

- Develop risk mitigation strategies and contingency plans to address challenges proactively.

Mode of Selection

The applications that fulfill the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.

(D) Terms of Reference (TOR) for Social Infrastructure and Social Welfare-Advisor

- Prepare comprehensive reports on program outcomes, challenges, and recommendations for improvement

Mode of Selection

The applications that fulfill the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.

(E) Terms of Reference (TOR) for Statistics and Data Analysis Advisor

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. Uttarakhand is home to around 11.3 million residents, making it the 20th most populous State in the country and 3rd in the Indian Himalayan Region. Uttarakhand is spending increasingly large budgetary outlay on various development schemes. The total expenditure estimated in the budget (2022-23) of the Government of Uttarakhand is Rs. 65571.49 crores; in the proportion of 75:25 between revenue and capital, with the outlay on Rural Development, Public Works, Education, Health & Family Welfare, Water Supply, Housing and Urban Development, Irrigation, and Flood Control, etc. accounting for the major share of the budgeted expenditure.

Uttarakhand is approaching its 25th anniversary in 2025. At this juncture, the State Government is pursuing the ambitious project of Sashakt Uttarakhand @ 25 to drive the state towards an inclusive socioeconomic growth trajectory. In 2022-23 the size of the State GDP was approximately Rs. 273.08 lakh crores which the state strives to double within the next five years while preserving the planet, ensuring social and gender equality, inclusive growth, creating a skilling ecosystem, and creating a large number of jobs. Moreover, the State Government has also developed a comprehensive Vision 2030 outlining the requisite strategies and interventions to accelerate Uttarakhand's progress towards UN-SDGs. Uttarakhand is in the process of developing its vision for 2047 that matches with the ambitious vision of the honorable Prime Minister: Vikasit Uttarakhand for Vikasit Bharat

To achieve the ambition of Sashakt and Viasit Uttarakhand and double its GDP, the state is in the process of strengthening and reimagining its institution. Chaired by the honorable Chief Minister (CM) Uttarakhand, the State Institution for Empowering and Transforming Uttarakhand (SETU) has been constituted through a government order on 21 July 2023. The SETU replaced the Planning Commission of Uttarakhand. SETU has been constituted for an improved planning system, effective and evidence-based decision-making, for promoting innovations, for strengthening the convergence, coordination, participation, and networking for the efficient, sustainable, and effective use of the state's resources and, to improve the interdepartmental coordination and concrete monitoring and evaluation of the state government programs, policies and schemes.

The SETU has a comprehensive and democratic structure, with the Honorable Chief Minister as Chairman and the Vice Chairman SETU. The Secretary of the Planning Department, CEO, and Members (all Ministers) support the Vice-Chairman. The main executive body of SETU, comprising the Secretary of the Planning Department, CEO, and ACEO, will oversee three centers under the guidance of Vice Chairman SETU:

1. The Centre for Economic and Social Development (CESD) identifies key sectors for job creation and advises on skill development and entrepreneurship.
2. The Centre for Public Policy & Good Governance (CPPGG) implements tech-based governance solutions, fosters participatory policymaking, and promotes administrative reforms.
3. The Centre for Evidence-based Planning (CEBP) focuses on data-driven policy planning, enhances monitoring and evaluation mechanisms, and supports data-centric decision-making.

The Centre for Evidence-based Planning (CEBP) is now seeking to hire a dynamic Statistics and Data Analysis Advisor. This senior-level leadership position will drive the objectives of the Center and report to the ACEO and CEO of SETU, with a dotted line reporting to the Secretary of the Planning Department.

Position Name: Statistics and Data Analysis Advisor

Mandatory Educational Qualifications

Master in a relevant subject like Economics, Statistics, Mathematics, Computer Science/Information Technology or a similar discipline. Preferences may be given to Doctoral Degree.

- Strong analytical skills with proficiency in statistical analysis software such as SPSS, Power BI, and Excel and AI tools. Experience in utilizing online data collection tool sand managing dashboards for effective and evidence-based decision-making
- Demonstrated skills and experience in generating quality reports and other knowledge products that effectively communicate M&E findings and insights to stakeholders.
- In-depth understanding of government M&E system, including challenges and opportunities for improvement
- Publications in the form of reports, journal articles, research publications, and editorials, demonstrating thought leadership and contributions in Monitoring and Evaluation.
- Proven ability to provide technical assistance and capacity-building support to project teams, government officials, and partner organizations in M&E-related areas.
- Experience in leading or contributing to M&E-related policy development initiatives at the national or international level.

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 2.5 lakhs/month including all (fixed)

Scope of work

Develop M&E Framework

- Support the development of a comprehensive M&E framework in alignment with the long-term strategic goals and objectives of the State Government of Uttarakhand.

- Support departments in developing SMART indicators, benchmarks, and targets to measure the performance and impact of the policies, programs, and schemes of the Government of Uttarakhand.
- Facilitate the development of the output-outcome budget by aiding the department to clearly articulate the realistic outputs and outcomes, incorporating SMART Performance Indicators.

Implementation of M&E System

- Support departments in implementing robust monitoring and evaluation systems to track the performance of programs, projects, and Policies of the Government of Uttarakhand.
- Support in the management of program dashboards, ensuring the effective tracking of progress and achievement of key performance indicators.
- Develop methodologies and processes for data collection, analysis, and reporting of the departments.

Evaluation Design and Execution

- Support third-party evaluations of key programs, policies, and schemes, ensuring objectivity and rigor in the evaluation methodologies of SETU and the concerned departments.
- Ensure that all performance reviews and evaluations contain specific, targeted, and actionable recommendations.
- Support concerned departments in responding to the recommendation(s) within a stipulated timeframe and outlining a) agreement or disagreement with said recommendations, b) proposed action(s) to address said recommendation(s), and c) timeframe for implementation of said recommendation(s).
- Support departments in maintaining a Recommendation Implementation Tracking Plan, which will keep track of review and evaluation recommendations, agreed follow-up actions, and the status of these actions.

Data Management and Analysis

- Establish and maintain a centralized database for collecting, storing, and analysing M&E data for key performance indicators.
- Conduct a multi-indicator survey at a regular frequency to update and enrich the M&E data bank, facilitating continuous improvement and learning.
- Utilize advanced data analytics techniques to derive meaningful insights and convey this to the key government authorities for evidence-based decision, policy, and program making.

Capacity Building

- Facilitate the development and delivery of training and capacity-building workshops for government officials at all levels, enhancing their understanding of RBM principles, M&E concepts, methodologies, and tools.
- Strengthen the capacity of relevant government departments to independently manage and sustain M&E processes.

Quality Assurance

- Develop procedures and protocols to ensure the validity and reliability of administrative data.
- Ensure the quality and accuracy of M&E data through regular audits and checks.

Reporting

- Prepare regular and ad-hoc evidence-based analytical reports on government programs, policies, and schemes.

- Disseminate reports among the concerned government departments and officials.

Stakeholders Engagement

- Collaborate with internal and external stakeholders to ensure their input in the M&E system.
- Foster a culture of learning and adaptation based on M&E.

Mode of Selection

The applications that fulfill the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.

(C) Terms of Reference (TOR) for Public Policy and Good Governance-Domain Lead

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. Uttarakhand is home to around 11.3 million residents, making it the 20th most populous State in the country and 3rd in the Indian Himalayan Region. (D) Terms of Reference (TOR) for Social Infrastructure and Social Welfare: Domain Lead

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. Uttarakhand is home to around 11.3 million residents, making it the 20th most populous State in the country and 3rd in the Indian Himalayan Region. Uttarakhand is spending increasingly large budgetary outlay on various development schemes. The total expenditure estimated in the budget (2022-23) of the Government of Uttarakhand is Rs. 65571.49 crores; in the proportion of 75:25 between revenue and capital, with the outlay on Rural Development, Public Works, Education, Health & Family Welfare, Water Supply, Housing and Urban Development, Irrigation, and Flood Control, etc. accounting for the major share of the budgeted expenditure.

Uttarakhand is approaching its 25th anniversary in 2025. At this juncture, the State Government is pursuing the ambitious project of Sashakt Uttarakhand @ 25 to drive the state towards an inclusive socioeconomic growth trajectory. In 2022-23 the size of the State GDP was approximately Rs. 273.08 lakh crores which the state strives to double within the next five years while preserving the planet, ensuring social and gender equality, inclusive growth, creating a skilling ecosystem, and creating a large number of jobs. Moreover, the State Government has also developed a comprehensive Vision 2030 outlining the requisite strategies and interventions to accelerate Uttarakhand's progress towards UN-SDGs. Uttarakhand is in the process of developing its vision for 2047 that matches with the ambitious vision of the honorable Prime Minister: Vikasit Uttarakhand for Vikasit Bharat

To achieve the ambition of Sashakt and Vikasit Uttarakhand and double its GDP, the state is in the process of strengthening and reimagining its institution. Chaired by the honorable Chief Minister (CM) Uttarakhand, the State Institution for Empowering and Transforming Uttarakhand (SETU) has been constituted through a government order on 21 July 2023. The SETU replaced the Planning Commission of Uttarakhand. SETU has been constituted for an improved planning system, effective and evidence-based decision-making, for promoting innovations, for strengthening the convergence, coordination, participation, and networking for the efficient, sustainable, and effective use of the state's resources and, to improve the interdepartmental coordination and concrete monitoring and evaluation of the state government programs, policies and schemes.

The SETU has a comprehensive and democratic structure, with the Honorable Chief Minister as Chairman and the Senior level thought leader as the Vice Chairman SETU. The Secretary of the Planning Department, CEO, and Members (all Ministers) support the Vice-Chairman. The main executive body of SETU, comprising the Secretary of the Planning Department, CEO, and ACEO, will oversee three centers under the guidance of Vice Chairman SETU:

1. The Centre for Economic and Social Development (CESD) identifies key sectors for job creation and advises on skill development and entrepreneurship.
2. The Centre for Public Policy & Good Governance (CPPGG) implements tech-based governance solutions, fosters participatory policymaking, and promotes administrative reforms.
3. The Centre for Evidence-based Planning (CEBP) focuses on data-driven policy planning, enhances monitoring and evaluation mechanisms, and supports data-centric decision-making.

The Centre for Economic and Social Development is now seeking to hire a dynamic Social Infrastructure and Social Welfare Domain Lead to focus on the state's social infrastructure, and social welfare, to drive sustainable social development, and enhance overall community well-being through strategic initiatives

and policy recommendations. This senior-level leadership position will drive the objectives of the Center and report to the Domain Advisor, ACEO, and CEO of the SETU.

Position Name: Social Infrastructure and Social Welfare Domain Lead

Mandatory Educational Qualifications

Master in relevant subjects like Social Sciences, Economics, Public Policy, Social Work, Public Administration, Education, Health, Development Studies, International Development, or a similar social sciences discipline. Preferences may be given to Doctoral Degree.

Maximum Age Limit: 45 years (as on 01-04-2024)

Tenure: 03 years, if necessary maximum extension of 1+1 year.

Work Experience

- Minimum 6-8 years of experience at the state or national level in advising/implementing Health/education/Social welfare programs/projects
- Proven experience in social analysis, policy development, designing and analysing social welfare programs, social safety nets, education or health programs
- Strong understanding of social policies, community development, and welfare systems.
- Strong understanding of regional and national social dynamics with experience and understanding of hilly society and economy will be viewed favourably.
- Demonstrated leadership skills to drive the Social infrastructure and welfare-related programs and research
- Demonstrated ability to coordinate with diverse stakeholders like academia, government, CSOs, and community.
- Excellent communication and interpersonal skills.
- Publications in Journals, research publications, editorial reports, etc. showcasing thought leadership and contributions to the field of social infrastructure and social welfare.
- Experience in providing strategic advice and guidance to senior government officials and policymakers on social infrastructure development, social welfare policies, and programs aimed at addressing social disparities and promoting human development.
- Expertise in leveraging data-driven insights and evidence-based approaches to inform the development, implementation, and evaluation of social infrastructure and welfare programs, with a focus on achieving measurable impacts and outcomes.

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 2.5 lakhs/month including all (fixed)

Scope of work

Program Design and Implementation

- Support the development, implementation, and evaluation of social welfare programs that address the needs of vulnerable groups like old age people, widows, orphans, Divyang, SCs, STs, etc.

- Support in development and implementation of holistic strategies to enhance social infrastructure and social welfare programs, policies, and schemes and promote inclusivity and community development.
- Support Domain Advisor in developing the implementation strategies and action plans for state and central-sponsored programs and policies like NEP 2020.
- Develop knowledge products for navigating the social support system of the government and private sector.

Need Assessment

- Support Domain Advisor in conducting thorough needs assessments to identify gaps in existing social welfare programs, policies, and schemes.
- Facilitate meaningful collaboration with vulnerable community members, CSOs, concerned government departments, and relevant stakeholders to understand specific challenges and requirements of socially vulnerable groups.

Collaboration and Networking

- Establish and nurture strong partnerships with national and state-level government agencies, NGOs, and community organizations to enhance program effectiveness.
- Conduct a thorough analysis of social infrastructure and welfare programs and issues to support domain lead in providing strategic advice to senior government officials on these programs.
- Participate in relevant networks and forums to stay informed about best practices and emerging trends in social welfare

(D) Terms of Reference (TOR) for Social Infrastructure and Social Welfare Intern

Uttarakhand, one of the youngest Indian States, is the 20th largest economy (absolute GDP terms; FY 22) and 12th most prosperous (on per capita terms; FY 22) among Indian states. Uttarakhand is home to around 11.3 million residents, making it the 20th most populous State in the country and 3rd in the Indian Himalayan Region. Uttarakhand is spending increasingly large budgetary outlay on various development schemes. The total expenditure estimated in the budget (2022-23) of the Government of Uttarakhand is Rs. 65571.49 crores; in the proportion of 75:25 between revenue and capital, with the outlay on Rural Development, Public Works, Education, Health & Family Welfare, Water Supply, Housing and Urban Development, Irrigation, and Flood Control, etc. accounting for the major share of the budgeted expenditure.

Uttarakhand is approaching its 25th anniversary in 2025. At this juncture, the State Government is pursuing the ambitious project of Sashakt Uttarakhand @ 25 to drive the state towards an inclusive socioeconomic growth trajectory. In 2022-23 the size of the State GDP was approximately Rs. 273.08 lakh crores which the state strives to double within the next five years while preserving the planet, ensuring social and gender equality, inclusive growth, creating a skilling ecosystem, and creating a large number of jobs. Moreover, the State Government has also developed a comprehensive Vision 2030 outlining the requisite strategies and interventions to accelerate Uttarakhand's progress towards UN-SDGs. Uttarakhand is in the process of developing its vision for 2047 that matches with the ambitious vision of the honorable Prime Minister: Vikasit Uttarakhand for Vikasit Bharat

To achieve the ambition of Sashakt and Viasit Uttarakhand and double its GDP, the state is in the process of strengthening and reimagining its institution. Chaired by the honorable Chief Minister (CM) Uttarakhand, the State Institution for Empowering and Transforming Uttarakhand (SETU) has been constituted through a government order on 21 July 2023. The SETU replaced the Planning Commission of Uttarakhand. SETU has been constituted for an improved planning system, effective and evidence-based decision-making, for promoting innovations, for strengthening the convergence, coordination, participation, and networking for the efficient, sustainable, and effective use of the state's resources and, to improve the interdepartmental coordination and concrete monitoring and evaluation of the state government programs, policies and schemes.

The SETU has a comprehensive and democratic structure, with the Honorable Chief Minister as Chairman and the Vice Chairman SETU. The Secretary of the Planning Department, CEO, and Members (all Ministers) support the Vice-Chairman. The main executive body of SETU, comprising the Secretary of the Planning Department, CEO, and ACEO, will oversee three centers under the guidance of Vice Chairman SETU:

1. The Centre for Economic and Social Development (CESD) identifies key sectors for job creation and advises on skill development and entrepreneurship.
2. The Centre for Public Policy & Good Governance (CPPGG) implements tech-based governance solutions, fosters participatory policymaking, and promotes administrative reforms.
3. The Centre for Evidence-based Planning (CEBP) focuses on data-driven policy planning, enhances monitoring and evaluation mechanisms, and supports data-centric decision-making.

The Centre for Economic and Social Development is seeking to hire a Social Infrastructure and Social Welfare Research Associate. The responsibilities are diverse and multifaceted, requiring a combination of research, analytical, communication, and project management skills to address complex social challenges and contribute to the advancement of social welfare and community development initiatives. The Social

Infrastructure and Social Welfare Research Associate will report to Domain Advisor and Domain Lead, who will provide guidance, support, and feedback on research activities and deliverables.

Position Name: Social Infrastructure and Social Welfare Intern

Mandatory Educational Qualifications

PG/Pursuing PG (Final Year) in a relevant subject like Social Sciences, Economics, Public Policy, Social Work, Public Administration, Education, Health, Development Studies, International Development, or a similar social sciences discipline, etc.

Maximum Age Limit: 25 years (as on 01-04-2024)

Tenure: 1 year

Work Experience

- 0-1 year of experience at the state or national level in advising/implementing Health/education/Social welfare programs/projects
- Strong understanding of social policies, community development, and welfare systems.
- Strong understanding of regional and national social dynamics.
- Excellent communication and interpersonal skills.

Language: Fluent in English and Hindi

Salary: The salary shall be Rs 10 thousand/month including all (fixed)

Scope of work

- Conduct thorough literature reviews to gather existing knowledge and insights on topics such as social welfare policies, community development, poverty alleviation, healthcare, education, and housing.
- Analyze social welfare policies, programs, and interventions to assess their effectiveness, efficiency, and impact on target populations.
- Identify best practices, lessons learned, and areas for improvement in social
- Stay updated on emerging trends, policy developments, and innovations in the fields of social welfare, community development, and social policy analysis.
- Seek opportunities for professional development, such as attending conferences, webinars, and training workshops, to enhance skills and knowledge relevant to the role

Mode of Selection

The applications that fulfill the eligibility criterion will be placed before a screening committee comprised of the executive body of SETU. The shortlisted candidates will be interviewed and recommended to the Evaluation committee of SETU.
